Outlook

Use of the data we have

- Promote the tool properly
- Create a factsheet about all contributions per year (visual inventory), link to website/annual report/country factsheets
- Explore other facets with baselines statistics (disciplines, appearance of Working Groups, appearance of events)
- Devise a communication strategy (with the NC’s) – feature contributions, check if events in the tool are also on the website etc.

Improving the workflow

- Improve the documentation (DL of the implementation project, will also contribute to harmonize the use of the tool to some extent - !keep the variety!)
- Organize NC workshops around the tool (similar to the WG Chair exchange)
- Organize a reviewer meeting (JRC led) to discuss criteria

Strategic discussions

- Tool is part of the STRAPL, link it to other points in the STRAPL
- Connection to SSHOC (Marketplace, tool as reservoir for Marketplace candidates)
- Solicit discussions about open issues around the tool (with the NCC: transnational contributions, temporality of contributions, with JRC/NCC/SMT/SB: national services which have a potential to be taken up as models for DARIAH.EU (example: Fachinformation Philosophy as DARIAH.DE, or which services to profile as DARIAH.EU services (and having SLA’s with hosting institutions)? how important is the financial aspect?
- Link to other registries (existing: Course registry, envisioned: publications, projects)
